

# TBT Single Lip drills with indexable inserts WP-ELB Series 10

## Main Advantages:

1. **Versatility to use** on lathe, machining centers and deep hole machines.
1. **High efficiency** by specifically developed cutting edge geometry for ideal chip formation.
1. **Short downtime** resulting from quick exchange of wear parts
2. **Easy to use**, no sharpening, no length adjustment, easy inventory of wear parts.
3. **Long tool life** due to full coating, edge treatment and indexable design
4. **Quick availability** due to stocked wear parts and most common body sizes.

## Design:

## Technical Information:

- Diameter range: 12.00 mm – 28.00 mm
- Cutting blade & guide pads fully coated
- Covering the whole diameter range with only 6 sizes of cutting blades.
- Tool body built in steps of 0.1 mm
- Available with long head and three additional guide
- Adjusting shim available to fine-tune diameter

# TBT Single Lip drills with indexable inserts WP-ELB Series 10

## Inquiries and delivery:

- Please state the required drill diameter, the overall length and the clamping element.
- You will receive your tools fully equipped and ready to use.
- Each tool comes with the suitable TorxPlus® key for the replacement of wear parts

## Wear Parts overview:

Drill Ø		Cutting insert	Screw Torx Plus®	Guide pad	Screw Torx Plus®	Adjusting shim
