

Technical Data Sheet

CK158A SOLENOID BANKS

Product Features

Electric/Pneumatic Solenoid Bank

The modular solenoid bank, CK158A, allows the operator to configure all of the necessary functions to operate a trucks air controlled hydraulics into one neat simple unit.

This is a practical design for todays cabs for the operator on a limited budget.

Ideal to be matched to our LED Switch Banks or the trucks existing switches. The CK158A system provides easier installation with no airlines required in the cabin and no damage to truck dashboards.

- **Colour Coded Airlines**
Provides ease of installation.
- **Single Cable From Valves**
Provides ease of installation.
- **Pre Packaged System Kit**
Provides ease of installation.
- **Versatility**
Can be used on a number of different systems.
- **IP66 Rating**
Ensuring operation in all conditions.

Technical Data Sheet

CONTROL KIT DESIGNATION CODES

TCU Series CK158A

CK 158A - 8 - 24

Identifier

CK = Control Kit

Kit Series

158A

Solenoid Quantity

4
8
10

Voltage

12
24

Possible Functions

PTO	Latching
Tailgate Lock	Latching
Fifth Wheel Lock	Latching
Raise	Latching
Lower	Latching

Refer to installation instructions for a full list of functions

Note: Latching means the switch stays on until cancelled.
