

Technical Data Sheet

CK170 TCU CONTROL KITS

Product Features

Electric/Pneumatic Control

Designed to allow a universal installation of a truck and trailer side tipping system in a confined space, the TCU, CK170 leads the way with programmability and functionality.

With only a pendant control (with 2.5m lead) located in the cabin, the tipping operations can be controlled from any convenient location.

- **Pre Packaged System Kit**
Provides ease of installation.
- **Versatility**
Can be used with two spool valve or directional control and diverter valves.
- **Programmable**
Can be requested with different function modes.
- **Compact Design**
No unsightly "bolt on" in a new cab.
- **IP66 Rating**
Ensuring operation in all conditions.
