CK173 TCU CONTROL KITS

Product Features

Electric/Pneumatic Control

This manual switch control, CK173, is designed to operate an air shift PTO via a dash mounted rocker switch activating a remotely mounted solenoid valve.

This is a practical design for today's cabs for the operator on a limited budget.

With a lockable rocker switch the CK173 system provides easier installation with no airlines required in the cabin and no damage to truck dashboards.

- **Pre Packaged System Kit**
Provides ease of installation.
- **Compact Design**
No Unsightly "bolt ons" in a new cab.
- **IP66 Rating**
Ensuring operation in all conditions.
